

# THE LABORATORY OF ENVIRONMENTAL ANALYSES AND TAPHONOMY (LeaT)

This document shows the rates and outputs that the Laboratory of Environmental Analyses and Taphonomy (LeaT) offers.

## General conditions:

- The service requisition will be done through the application form that can be downloaded from the MNCN Lab website or by contacting the laboratory technical assistance by email.
- It's necessary to fill in the service request and send to laboratory by email.
- If the process is unsuccessful due to problems associated with a malfunction of the equipment, the service will not be charged. In all other cases, it will always be invoiced, even if results are not as expected.

## Rates:

### **Rate A – CSIC H2020:**

It's applied to Synthesis+ European projects.

### **Rate B – MCNC:**

It's applied to National Museum of Natural Sciences personnel. This will be charged to an internal account of the MNCN.

### **Rate C – CSIC:**

It's applied to the Spanish Council of Research researchers or collaborative joint centres with CSIC institutions or with MNCN. For CSIC collaborative joint centres, at least one researcher has to belong to the CSIC.

### **Rate D – NPRI/Universities:**

It is applied to non-profit research institutions (NPRI) and universities.

### **Rate E-Others**

It's applied to private institutions, or private companies or other companies who don't belong to the previous groups.
